Reading Your Water Meter

To find out how much water you have used since your last bill, read the first four digits, from left to the right, showing on your water meter. Billed usage is measured by thousands of gallons. Subtract your last bill's "current" meter reading from this number to find your recent consumption.

NOTE: Reading your own meter on a regular basis allows you to investigate large increases in water usage before you receive a high bill. High water bills are often caused by leaking faucets, toilets, pools, irrigation systems, or pipes and should be repaired promptly. Cost of usage caused by leaks is your responsibility.

Think You Have Water Loss?

To check for water loss, make sure that no water is running in or outside the house. Do not shut off any valves on any pipes. Locate the flow detector on your water meter. If either the small triangle or embossed circle at the center of the meter is rotating, or the word FLOW shows on the face of a digital meter, water is flowing through the meter indicating possible water loss. Visit www.collier.gov.net/utilitybilling and click on - Water and Sewer Services FAQs for more information.

For sewer backups call 239-252-2600 (24 hours a day) **BEFORE** calling a plumber.

Customer Reminders

- Promptly advise Utility Billing and Customer Service of any change in your telephone contact numbers and/or billing address.
- Promptly advise Utility Billing and Customer Service if the property is occupied by a tenant. Note that a monthly duplicate bill fee may be applied to the account. Property owners are advised that when a tenant fails to make a monthly bill payment, it becomes the responsibility of the owner. It is the owner's responsibility to ensure that tenants cancel any payment arrangements with the utility when their tenancy ends. Any overpayments must be resolved between the owner and tenant.
- Payment made by any other means may not be received and could result in termination of service, with a continuing obligation to pay.
